

We have redefined our comprehensive product range to bring customers four distinct ranges of products to meet their needs and budgets. The Choice Ranges are competitive, cost effective at any level and easy in application.

### **ULTIMATE CHOICE RANGE (UC)**

This is our premium range of products. They come with a complete service offering from regular site visits, chemical maintenance and an audit program, together with an online training portal that ensures safety whilst handling chemicals. This range has been developed to cater to exceed all expectations on application and cost effectiveness.

### **SUPERIOR CHOICE RANGE (SC)**

Our Superior Choice range, whilst a complete and comprehensive offering, has been developed with 'value-plus' in mind. We recognise that not all customers have a 'premium' budget, however still count on us to provide the best products to meet their needs. Jasol may have compromised on price, but the product and its application remains second to none, and we believe it's 'best in class'. This range comes with a service program and online training portal accessibility that will be designed by your Jasol Hygiene First expert.

### **COMMERCIAL CHOICE RANGE (CC)**

Our Commercial Choice range is designed for every day use. It does not include service call outs or online training portals. This range is suitable for smaller customers who are looking for a retail offering. Regardless of the range you're looking for, all of our products will exceed your expectations and ensure complete product satisfaction. Jasol has always provided quality products that are easy in application and cost effective.

### **ENVIRONMENTAL CHOICE RANGE (EC)**

This is our environmentally responsible range and like Ultimate Choice is one of our high performers, yet completely cost effective. The range is made entirely from renewable plant resources rather than oil based ingredients, is readily bio-degradable and has certification from Good Environmental Choice Australia (GECA), the premier mark of environmental sustainability performance. The EC Range comes with a regular chemical maintenance and audit programs and an online training portal to ensure you follow safety procedures when handling chemicals. Your Jasol Hygiene First expert will work with you to determine the best products and servicing to meet your needs.

Jasol is one of four divisions from the George Weston Foods (GWF) family of brands, with GWF being a wholly owned subsidiary of Associated British Foods.

Coupled with strong global backing, we are your nationally recognised, local expert for Cleaning & Hygiene solutions.

We bring you solutions that have stood the test of time, stemming from over 80 years of experience.
