NEW

STYLISH AND RELIABLE SOAP DISPENSING SYSTEMS

Jasol has a clear understanding on the importance of hygiene, ensuring a safer, cleaner environment in the workplace, and is pleased to introduce a superior, stylish and reliable soap dispenser range.

SOAP DISPENSER SYSTEMS

Jasol's wall mounted soap dispensers use the latest innovation with a 100% inner mechanism which ensures full hygiene integrity.

Highly versatile, both units are made with the same unique mechanism with interchangeable pumps and bottles that can be switched between models. Bottles are replaced when the container is empty, and containers are never in contact with air or germs, so its integrity is never compromised.

WET WIPE DISPENSER

Solid and clever, the Modular wet wipe dispenser has been designed to dispense one wet wipe at a time, while keeping the remaining stock as fresh as new. The automatic closure fits perfectly to the neck provided for wetwipe packs, preventing wipes from drying out. Mounted on a wall, this static cleaning station also keeps the workplace tidy and locks away the stock of wetwipes.

AUTOMATIC DRYER

Jasol's automatic hand dryer offers the highest level of performance. Its small size helps to reduce the amount of water spread by the blast, resulting in a cleaner and more hygienic environment.

MANUAL DISPENSER

TOUCH FREE DISPENSER

WET WIPE DISPENSER

AUTOMATIC DRYER

Jasol's Safe T Guard is an alcohol free, instant foam hand sanitiser, containing unique ingredients that reduce the spread of germs. Delivered via a touchless dispensing system as a foam (or via pump bottle) onto the surface of the skin and quickly evaporates when hands are rubbed together. This unique moisturising formula is also perfume free, leaving hands soft, smooth with no lasting stickiness, odour or residue.

Safe T Guard, for use in both manual and touch free dispensers, joining the Jasol Personal Care Range soon.

“As an organisation we are committed to delivering 'hygiene first', which speaks to our market place about the importance of safety. Our comprehensive Choice Product Range, complemented by a level of service that our customers have come to trust and expect. We pride ourselves on being innovators in an industry that's forever changing, and our new Soap Dispensers with unique Sanitising Pod as well as wet wipe system(s) gives just another example in how we listen to our customers and provide the best possible solutions for all their cleaning and hygiene needs.

MATTHEW ROWLAND
JASOL'S MANAGING DIRECTOR
