EDUCATION HYGIENE PROGRAM

Jasol is passionate about providing customers with the most comprehensive environmentally responsible offering available.

The Jasol EC range is ideal for schools and childcare centres. Our EC range is cost effective, provides performance and safety benefits, as well as environmental sustainability.

EC range is a complete and extensive chemical range with products for the bathroom, kitchen, classroom and outdoor play areas. We support our product range with training, dispensing technology and compliance programs to provide a full-service package.

The Jasol EC range is GECA (Good Environmental Choice Australia) approved, an internationally recognised certifier of environmentally preferable goods and services.

Why Jasol EC Range for Childcare Cleaning Solutions?

- Non-toxic
- Effective cleaning solutions
- Readily biodegradable
- Colour coded
- Chlorine free
- Phosphate free
- GECA certified and promotes safe hygiene at an early age

YOU CAN COUNT ON US!

WHEN YOU NEED KNOWLEDGE, EXPERIENCE AND COMMITMENT, WE'VE GOT YOU COVERED.

With 85 years of manufacturing expertise and delivering hygiene solutions, when you partner with Jasol you can be rest assured that you've got the products and the services that you can trust. Our product range is developed by experienced product developers that understand the varying needs of hygiene solutions, expectations, regulations and legislations to contend and comply with.

Our Innovation and Technical team of Scientists, Biotechnologists, Product Engineers and Regulatory Experts combined with our Tech Services professionals set us apart from competitors, we pride ourselves in delivering leading innovations and the highest levels of service in the industry.

Dr Alice Makardij

Dr Alice Makardij is the Technical and Quality Director at Jasol Australia. Alice is a Chemical Engineer with Masters in Surfactants and PhD in Dairy Filtration from the University of Auckland.

Alice has worked on providing hygiene solutions for food industry for over 25 years designing customised hygiene solutions combined with the best cleaning formulations to optimise process and improve chemical safety.

Alice leads the innovation and technology team in Jasol, a team that provides hygiene solutions and value add projects for a variety of applications over Australasia. Alice is an impactable leader with a strong vision of the future focusing on finding safer, smarter, more effective solutions to hygiene management.

Jasol also offer perfumed and non-perfumed gel or foam hand wash and alcohol based hand sanitiser options

ECOSHOT DISPENSING SOLUTION

Jasol is proud to introduce the ECOSHOT chemical dispensing system. The ECOSHOT chemical dispenser is a stand-alone chemical dosing system that does not require a mains water connection. It is ideal for dispensing accurate dosage of chemicals into bottles, sinks or buckets. The dispenser itself is simple to operate, compact and neat.

- **EASY AND SAFE TO USE**

The ECOSHOT has a specially designed push button which can be easily pressed to deliver a 5 ml to 30 ml shot of chemical safely into a bottle, sink or bucket to make up ready to use solutions for a variety of cleaning applications. A unique built-in delay green indicator in the centre of the button lets the user know when the unit is ready to deliver the next shot. This feature prevents overdosing once a shot of chemical has been dosed.

- **GREAT LOOK**

The ECOSHOT is compact, sleek and attractive. It is easily fitted to the wall in any location where chemical dispensing is required. The convenience of this allows the unit to be installed simply and efficiently. The chemical cabinet can be fitted neatly near the dispenser and complements the great look.

- **EASY TO CHANGE CHEMICAL CONTAINERS**

The ECOSHOT draws chemical from uniquely fitted SAFE LINK chemical containers which are designed to function specifically with the dispenser providing a closed loop system. When the chemical is finished, the empty container can be easily removed and a new container can be screwed onto the adaptor cap which is linked to the dispenser. The full containers can be attached to the dispenser and empty containers can easily be disposed of without coming into contact with the chemical.

- **ACCURATE DOSING**

The ECOSHOT has a built-in delay function to prevent overdosing of chemical once a shot of chemical is dosed into the bottle, sink or bucket. 5 ml to 30 ml of chemical can be dosed to make up ready to use solutions.

- **ROBUST CONSTRUCTION**

The ECOSHOT has a strong construction made from durable reinforced polypropylene and design features to be suited to most applications.

- **COLOUR CODED CHEMICAL SYSTEM**

Jasol's unique system of colour coded chemicals, product labels and chemical dispenser labels ensure complete alignment from the chemical to the application. The colour coding prevents mixing up the wrong chemical on the dispenser and allows users to clearly identify the chemical and ensures correct chemicals are used at all times.

HAND HYGIENE DISPENSERS

Jasol's wall mounted hand hygiene dispensers have 100% disposable inner mechanism to ensure full hygiene integrity. Unique, state of the art dispensers with a customised and easy to follow pictorial step by step instructions.

Both units have interchangeable pumps and pods that can be easily switched between foam or gel soap. Once the pods are placed in the unit they only need replacing when the container is empty. The chemical is never in contact with air or germs.

From liquid to foam hand soaps with the latest dispensers we've got all your hand hygiene needs covered!

NEW TOUCH FREE & MANUAL LIQUID OR FOAM SOAP DISPENSERS

Jasol's wall mounted soap dispensers have 100% disposable inner mechanism to ensure full hygiene integrity. Both units have interchangeable pumps and soap pods that can be easily switched between each. Once the soap pods are placed in the unit they only need replacing when the container is empty. The chemical is never in contact with air or germs.

Safe T Guard Alcohol-Free Foaming Hand Sanitiser

Safe T Guard is an alcohol and fragrance free foaming hand sanitiser that is kind to hands. It is specifically formulated for frequent use applications and is gentle and soft on hands, free of stickiness.

Safe T Guard is non-hazardous and non-DG, and due to its foaming properties uses less product per application and is therefore highly cost effective.

EC6 Foaming Hand Wash

EC6 is an antibacterial foaming hand soap. It contains emollients and moisturiser to support healthy skin for frequently washed hands.

EC6 is non-hazardous and non-DG and is certified by GECA (Good Environmental Choice Australia)

Due to its foaming properties, EC6 uses less product per application and is therefore highly cost effective.

ARE YOU LOOKING FOR A SUSTAINABLE FUTURE?

Jasol is proud to introduce the new Environmental Choice (EC) range of highly effective, yet environmentally responsible, cleaning and sanitising products.

These products are:

- made almost entirely from renewable plant resources rather than oil-based ingredients;
- readily biodegradable;
- high performance, yet cost effective;
- certified by GECA (Good Environmental Choice Australia), the premier mark of environmental performance for products and services in Australia.

This innovative and comprehensive range is the environmentally responsible choice for your cleaning needs.

ABOUT JASOL

Established over 85 years ago and backed by strong quality and environmental credentials, Jasol is a trusted market leader in the manufacture and supply of high-quality cleaning and hygiene solutions that can cater for almost every need. Whether you are in food manufacturing facilities, food services, schools, leisure centres, kitchens, washrooms or laundries, Jasol has your cleaning and hygiene needs covered.
