## The Choice is Jasol

Established in 1934, Jasol is a respected market leader in the Cleaning and Hygiene Industry. With 85 years of manufacturing expertise, when you partner with Jasol you can be rest assured that you have got the products and the services that you can trust.

Given the depth and breadth of our knowledge, resulting from our heritage and highly experienced team, we are passionate to develop innovative cleaning & hygiene solutions. Combined with our comprehensive product range we endeavour to provide the best possible outcome for our customers. Our product range is developed by experienced product developers that understand the varying needs of hygiene solutions, expectations, regulations and legislations to contend and comply with.

At Jasol we develop hygiene solutions in collaboration with our customers, we create partnership where innovation and collaboration allow us to stay ahead in a rapidly evolving industry. Our hygiene programmes are designed to keep you safe, your processes compliant and to minimise food wastage via reinforcing safe practices.

Our Innovation and Technical team of Scientists, Biotechnologists, Product Engineers and Regulatory Experts combined with our Tech Services professionals set us apart from competitors, we pride ourselves in delivering leading innovations and the highest levels of service in the industry.

Jasol supports and serves a wide range of sectors from Hospitality to Healthcare, Dairy, Food & Beverage, Water Treatment, Retail Food, Government/Institutional and Industrial & Mining, with offices across Australia, New Zealand and Thailand.

As a business, “Hygiene First” speaks to the importance of Food Safety. It is an integral component of our core value proposition. For all your cleaning and hygiene needs, the Choice is Jasol.

| EXCEL EXTRACT            | 3X5L    | 2090680 |          | Ready-to-use detergent for carpet extraction, odour and general spot removal. Eucalyptus perfumed.   | NON HAZ, NON DG |

| Highly Alkaline Cleaners       | UOM         | Code    | Approval                           | Description  | Classification  |
|--------------------------------|-------------|---------|------------------------------------|--|-----------------|
| ALKALI ADDITIVE                | 1000L       | 2054210 |                                    | A blend of liquid surfactants specifically designed for addition to caustic solutions for CIP cleaning operations.   | HAZ, DG         |
| ALKALI                         | 20KG        | 2051950 |                                    | Alkaline powder designed for cleaning and de-rusting of metal parts. One-shot process for removing rust and cleaning away of fats, blood and grease.                             | HAZ, DG         |
| EL ZC2                         | 20L         | 2055641 |                                    | Heavy duty concrete cleaner ideal for cleaning machinery equipment and workshop floors that remove rubber tyre skid marks and oil stains.  | HAZ, DG         |
| SMOKEHOUSE CLEANER             | 20L         | 2055490 | HALAL                              | Alkaline cleaner for heavy duty cleaning of smokehouses in meat processing establishments. Formula is enhanced with surfactants to provide effective and rapid soil removal.     | HAZ, DG         |
|                                | 200L        | 2055510 |                                    |  |                 |
|                                | 1000L       | 2055500 |                                    |  |                 |
| General Purpose Detergents     | UOM         | Code    | Approval                           | Description  | Classification  |
| C&C CLEANER                    | 3X5L        | 2035060 |                                    | Ammoniated cleaner providing extra grease cutting power. Designed to clean floors, stoves, fridges, toilet bowls, bathtubs, chrome and plastic ware.                             | NON HAZ, NON DG |
|                                | 20L         | 2034570 |                                    |  |                 |
| LEMON CLEANER NEW              | 6X1L        | 1000160 |                                    | All-purpose cleaner safe to use on all surfaces. Easily removes grease, smoke stains and finger marks.   | NON HAZ, NON DG |
| PINE FOREST CLEANER            | 6X1L        | 1000170 |                                    | Universal pine oil based cleaner. It provides superior degreasing properties and may be used in the kitchen, toilet and bathroom.  | NON HAZ, NON DG |
| REGULAR CLEANER NEW            | 6X1L        | 1000150 |                                    | Ammoniated cleaner providing extra grease cutting power. Effectively removes dirt and grime from floors, toilet bowls, bathtubs, chrome and plastic ware.                        | NON HAZ, NON DG |
| Disinfectants                  | UOM         | Code    | Approval                           | Description  | Classification  |
| FINCOL                         | 3X5L        | 2044080 | TGA Hospital Grade (AUST L 346580) | Concentrated disinfectant suitable for cleaning and sanitation across a number of industries.  | HAZ, DG         |
| GASTROCLEAN                    | 200L        | 2993290 |                                    | Acidic cleaner containing triple action of glycolic, phosphoric and citric acids, making it an ideal product for cleaning and maintaining equipment, tools, vehicles and floors. | HAZ, DG         |
| SANITOL BLEACH SACHETS         | 150X8G      | 4990016 |                                    | Disinfecting agent for cleaning and sanitising hard surfaces. It contains 62% chlorine, offering high commercial disinfection strength.  | HAZ, DG         |
|                                | 600X8G      | 4990014 |                                    |  |                 |
| SANITOL BLEACH TABLETS         | 1000X4G     | 4990024 |                                    | A tablet form disinfecting agent for cleaning and sanitising purposes of hard surfaces. It contains 62% chlorine, offering high commercial disinfection strength.                | HAZ, DG         |
| SANITOL BLEACH WRAPPED TABLETS | 100 JAR     | 4990019 |                                    | Individually wrapped tablets used as disinfecting agent. Provides a safe and simple chemical agent for sanitising hard surfaces.   | HAZ, DG         |
|                                | 100 JARX4   | 4990021 |                                    |  |                 |
|                                | 100 JARX4X6 | 4990022 |                                    |  |                 |
| DIOXYSAFE TABLETS              | 200X20G     | 4990023 |                                    | Generates an effective chlorine dioxide sanitising/ disinfecting solution when added to water.   | HAZ, DG         |
| SAFETY SOLVENT DL              | 20L         | 2131910 |                                    | A D-Limonene based liquid, specifically designed for the removal of grease, carbon and other foreign matter.   | HAZ, DG         |

| LC-32                 | 1000L  | 2149000 |              | Heavy duty alkaline solution used for pH adjustment in water treatment units or facilities.   | HAZ, DG        |
| HYDROCHLORIC ACID 9%  | 1000L  | 2132680 |              | 9% Hydrochloric acid solution used for pH adjustment in dairy and food processing industries.   | HAZ, DG        |
| HYDROCHLORIC ACID 33% | 15L    | 2132650 |              | 33% Hydrochloric acid solution used for pH adjustment in dairy and food processing industries.  | HAZ, DG        |
|                       | 1150KG | 2170430 |              |   |                |
| SULPHURIC ACID 70%    | 1000L  | 2054130 |              | Acidic solution used for pH adjustment, waste and sanitary water treatment and for breaking emulsions in industrial waters.   | HAZ, DG        |
| SULPHURIC ACID 98%    | 1000L  | 2180006 |              | Highly concentrated acid for pH adjustment in dairy and food processing facilities.   | HAZ, DG        |
|                       | Bulk   | 2180010 |              |   |                |
| Cooling Tower         | UOM    | Code    | Approval     | Description   | Classification |
| DUROBROM              |        | 2144005 |              | Halogenated hydantoin designed to function as an effective microbicide through the controlled release of active bromine and chlorine.   | HAZ, DG        |
| PROTREAT 362          | 15L    | 2141360 | HALAL        | High-performance broad spectrum bronopol based biocide recommended for use in industrial cooling systems, cooling towers, air scrubbers and paper-mill waters.  | HAZ, DG        |
| PROTREAT 363          | 15L    | 2141500 | HALAL        | for use in industrial cooling systems, cooling towers, air scrubbers and paper-mill waters.   | HAZ, DG        |
| PROTREAT 366          | 15KG   | 2140150 |              | High performance broad spectrum bromochloro-dimethylhydantoin based biocide. Particularly used to control Legionella pneumophila outbreaks when manually dosed to contaminated systems.   | HAZ, DG        |
| PROTREAT 367          | 15L    | 2140160 |              | High quality Sodium Hypochlorite used for Cooling Tower disinfection.   | HAZ, DG        |
|                       | 1000L  | 2140161 |              |   |                |
| PROTREAT 486          | 15L    | 2141400 | HALAL KOSHER | Formulation combining scale, corrosion and dispersancy protection in a single product. Effective over a wide range of pH and temperature control parameters.  | HAZ, DG        |
| PROTREAT 526          | 15L    | 2141430 | HALAL        | Closed Loop corrosion inhibitor, suitable for hot and cold systems, compatible with Glycol.   | HAZ            |
| PROTREAT 810          | 15L    | 2140300 | HALAL        | A concentrated alkaline solution used for controlling or increasing the pH or alkalinity of water in boilers, cooling systems and effluent streams.   | HAZ, DG        |
|                       | 200L   | 2140301 |              |   |                |
| JASOLVE C20V-C        |        | 2144002 |              | Proprietary water treatment for stressed conditions that utilises the very latest anti-scaling, anti-fouling and corrosion inhibition technologies.   | HAZ            |
| JASOLVE C22V-C        |        | 2144003 |              | A proprietary water treatment for corrosive conditions that utilises the very latest anti-scaling, anti-fouling and corrosion inhibition technology.  | HAZ            |
| JASOLVE C100-G        |        | 2144004 |              | High performance broad spectrum microbiocidal bactericide, fungicide and slimicide recommended for treatment of industrial cooling water systems and pulp and paper mills.  | HAZ, DG        |
| JASOLVE CPEN-C        | STICK  | 2144007 |              | Bio dispersant designed for management of biofilm growth in water recirculation systems and heat transfer equipment. It assists in the prevention and removal of biological foulants in heat transfer equipment and cooling towers. | HAZ            |

|--------------------------|---------|---------|----------|--|-----------------|
| CHLORINE TABLETS         | 40KG    | 2170992 |          | Disinfection agent for drinking water treatment. Contains 70% chlorine which is the highest commercially available strength.   | HAZ, DG         |
| Flocculants & Coagulants | UOM     | Code    | Approval | Description  | Classification  |
| JAFLOC AE49              | 25KG    | 2144090 |          | A polyacrylamide solution used for water treatment in various industries.  | NON HAZ, NON DG |
| JAFLOC CESC79            | 25KG    | 2144080 |          | Very high density charge polyacrylamide solution used for waste water flocculation in various industries.  | NON HAZ, NON DG |
|                          | 1050KG  | 2144081 |          |  |                 |
| JAFLOC CP29              | 15KG    | 2144100 |          | Water purification powder designed to be used in the physio-chemical water purification process after coagulation.   | NON HAZ, NON DG |
| JAFLOC CP59              | 15KG    | 2144070 |          | Ultra high density charge polyacrylamide powder used for waste water flocculation in various industries.   | NON HAZ, NON DG |
| JAFLOC CP79              | 15KG    | 2144021 |          | Very high density charge polyacrylamide powder used for waste water flocculation in various industries.  | NON HAZ, NON DG |
| JAPAC 23                 | 15L     | 2144030 |          | Polyaluminium hydroxy chloride coagulant used for waste water treatment. It contains around 3 times as much active ingredient as liquid alum. Cost effective solution.                   | HAZ             |
|                          | 1000L   | 2140001 |          |  |                 |
| FERRIC SULPHATE 42%      | 1600KG  | 2140431 |          | Iron salt solution used as a coagulant in waste water treatment. It facilitates the floc formation which are removed during the subsequent clarification or filtration stages.           | HAZ, DG         |
|                          | BULK KG | 2140430 |          |  |                 |
| Boiler Treatment         | UOM     | Code    | Approval | Description  | Classification  |
| PROTREAT OS110           | 15L     | 2142160 | HALAL    | Sodium metabisulphite based product designed to prevent corrosion in steam generating systems by absorbing oxygen from feedwater and boiler water.                                       | NON HAZ, NON DG |
| PROTREAT OS155           | 15L     | 2142020 | HALAL    | A blend of natural and synthetic organic materials which prevents corrosion in steam generating systems by absorbing oxygen from feedwater and boiler water.                             | NON HAZ, NON DG |
| PROTREAT OS156           | 15L     | 2142000 | HALAL    | Blend of natural and synthetic organic materials combined with the power of caustic detergents designed to prevent corrosion in steam generating systems.                                | HAZ, DG         |
| PROTREAT BFW32F          | 15L     | 2142100 | HALAL    | Polymer based boiler treatment solution. It is a blend of deposit and corrosion inhibitors for power generating systems. It may also be used as an alkalinity builder in boiler systems. | HAZ, DG         |
| PROTREAT BFW82F          | 15L     | 2142080 | HALAL    | One-shot boiler scale and corrosion inhibitor and sludge conditioner.  | HAZ, DG         |
| JASOLVE BA1-SN-C         |         | 2144008 |          | Sodium sulphite based corrosion inhibitor designed for preventing corrosion in steam generating systems by absorbing oxygen from feedwater and boiler water.                             | HAZ             |

| Acid Cleaners               | UOM   | Code    | Approval        | Description   | Classification |
|-----------------------------|-------|---------|-----------------|---|----------------|
| <b>ACID CLEANER PHOS 50</b> | 1000L | 2170770 |                 | Phosphoric acid with powerful chelating agents, ideal for scale removal in food processing equipment, such as concentrators, pre-heaters, pasteurising and cream treatment.                         | HAZ, DG        |
| <b>CIP ACID NS</b>          | 20L   | 2054750 | HALAL           | Descaling agent and acidic detergent for the dairy industry designed for the removal of milk stone and mineral deposits. Recommended for cleaning stainless steel equipment.                        | HAZ, DG        |
|                             | 1000L | 2052895 |                 |   |                |
| <b>CIP NP1000</b>           | 15L   | 2054551 |                 | A blend of phosphoric and nitric acid designed for the acid cleaning stage in CIP at dairy processing facilities.   | HAZ, DG        |
|                             | 200L  | 2054550 |                 |   |                |
|                             | 1000L | 2054530 |                 |   |                |
| <b>HYGIENE PLUS</b>         | 15L   | 2054781 |                 | Highly concentrated acidic detergent/sanitiser formulated for use through foam generating equipment. It removes a wide range of soils encountered in food processing equipment.                     | HAZ, DG        |
|                             | 200L  | 2050980 |                 |   |                |
| <b>NITRIC ACID 50% W/V</b>  | 1000L | 2170007 |                 | Decaling agent for removal of milk stone and water scale deposits from stainless steel surfaces.  | HAZ, DG        |
| <b>SOLFAM</b>               | 5KG   | 2172130 |                 | Powdered acid cleaner designed for use in food processing plants. It is based on Sulphamic acid, efficient for milk stone removal and descaling purposes.   | HAZ, DG        |
| Alkaline Cleaners           | UOM   | Code    | Approval        | Description   | Classification |
| <b>ALLKLEEN</b>             | 3X5L  | 2055130 | HALAL           | Heavy duty alkaline cleaner and degreaser formulated to rapidly emulsify fat, grease and oil even in hard water conditions. Its non-perfumed formula makes it ideal for use in the food processing. | HAZ, DG        |
|                             | 20L   | 2052730 |                 |   |                |
|                             | 200L  | 2050150 |                 |   |                |
|                             | 1000L | 2050160 |                 |   |                |
| <b>BRUTUS</b>               | 3X5L  | 2035050 |                 | Heavy duty cleaner and degreaser for food processing and industrial areas. Ideal for cleaning concrete floors, boat decks, bilges and engine degreasing even in extreme hard water conditions.      | HAZ, DG        |
|                             | 20L   | 2033400 |                 |   |                |
|                             | 200L  | 2030180 |                 |   |                |
| <b>CIP ALKALI NA40</b>      | 15L   | 2054270 | HALAL           | Heavy duty alkaline detergent ideal for cleaning milk processing equipment. It is designed to remove stubborn soils in CIP circulation cleaning.  | HAZ, DG        |
|                             | 200L  | 2052910 |                 |   |                |
