

# CIP ACID NS

## Liquid Acid CIP Cleaner

### FEATURES

- Suitable for automatic CIP systems
- Hard water compatible
- HALAL approved
- Heavy duty capacity
- Suitable for stainless steel

### AREAS OF USE

- Food processing plants
- Breweries
- Wineries
- Dairy processing plants
- Food manufacturing facilities

### DESCRIPTION

CIP ACID NS is a descaling agent and acidic detergent for the dairy industry designed for the removal of milk stone and mineral deposits not normally removed by alkaline detergents in milking equipment. CIP ACID NS is recommended for cleaning stainless steel equipment.

### DIRECTIONS FOR USE

Immediately after milking, rinse the machine with water at 35°C. Wash the plant using a minimum of 7L of hot water per set of cups. Add 20-25mL of CIP ACID NS per 10L of hot water. For best results, wash solution must be at 80-85°C in the wash tub. Circulate the wash solution for not more than 5 minutes or until the wash solution temperature drops to 60°C, whichever occurs first. Rinse the milking machine with 5L of hot water at 65-70°C per set of cups.

Consult your Jasol representative for further technical information.

### SAFETY INFORMATION

CIP ACID NS is classified as Hazardous according to the GHS.

CIP ACID NS is classified as Dangerous Goods according to the ADG Code (7<sup>th</sup> Ed).

CIP ACID NS is a Scheduled Poison according to the SUSMP.

Avoid contact with eyes and skin. Refer to SDS for further information.

#### FIRST AID INFORMATION

For advice in an emergency, contact a **Poisons Information Centre (Phone Australia 13 11 26 or New Zealand 0800 764 766) of a doctor at once.** If swallowed do NOT induce vomiting. Wash out mouth thoroughly and seek immediate medical attention. If in eyes, hold eyelids apart and flood with water for at least 15 minutes. If on skin, remove contaminated clothing and wash affected area with running water. Seek immediate medical attention.
