

CHLORFOAM

Chlorinated Cleaner & Sanitiser

FEATURES

- Complete one shot cleaning & sanitation
- Bactericidal effect
- Stable high density foam
- Stable chlorine residual capacity for storage
- HALAL approved

AREAS OF USE

- Food processing areas
- Dairy processing areas
- Butcher areas
- Abattoirs
- Bakeries
- Retail food facilities
- Fresh produce areas

DESCRIPTION

CHLORFOAM is an alkaline cleaner containing a unique blend of surfactants, alkalis and chlorine to simultaneously clean and sanitise food processing areas. Suspension agents and alkaline components of the formula allow for rapid penetration and removal of protein, blood and fat soils preventing their re-deposition. Bleach capacity ensures a bacteria free surface.

DIRECTIONS FOR USE

Hard Surface Disinfectant: Dilute at a ratio of 1:5 with water. **Foam Cleaning:** Meter through a Venturi/Foam unit at a breakdown of 1:50 with water depending on the nature of foam required. **Manual Cleaning:** Use at a concentration of 3-4mL/L of water, depending on the degree of soiling. Leave to act for 3-5 minutes for sanitizing and rinse with potable water.

SAFETY INFORMATION

CHLORFOAM is classified as Hazardous according to the GHS.
 CHLORFOAM is classified as Dangerous Goods according to the ADG Code (7th Ed).
 CHLORFOAM is classified as a Scheduled Poison according to SUSMP.
 Avoid contact with eyes and skin. Refer to SDS for further details.

FIRST AID INFORMATION

For advice in an emergency, contact a **Poisons Information Centre (Phone Australia 13 11 26 or New Zealand 0800 764 766) of a doctor at once**. If swallowed do NOT induce vomiting. Wash out mouth thoroughly and seek immediate medical attention. If in eyes, hold eyelids apart and flood with water for at least 15 minutes. If on skin, remove contaminated clothing and thoroughly flush skin with running water. Seek immediate medical attention.
