

NEW

INTRODUCING JASOL'S COFFEE KLEEN

High Performance Espresso Machine Cleaner
and Descaler with a Green Touch!

Jasol is proud to introduce “COFFEE KLEEN” the new eco-friendly Espresso Machine Cleaner. A product made of environmentally responsible ingredients that delivers superb performance without adding harm to the environment.

COFFEE KLEEN is an effective, eco-friendly, dual-action cleaner and descaler, formulated to remove the build-up of coffee residues, oils and water scale in your coffee machine to give a fresher, better tasting cup of coffee.

The unique non-corrosive powder is designed to break down tough soils and stubborn stains and when used as directed, it is safe for soft metal surfaces as well as for plastics and chinaware too.

BENEFITS

- ✓ Made almost entirely from renewable plant resources
- ✓ Readily biodegradable

HOW TO CLEAN AN ESPRESSO MACHINE

- 1 Replace the coffee filter with the cleaning blank.
- 2 For daily cleaning add 1 level scoop (5g) of Coffee Klean onto the blank and insert as if brewing espresso.
- 3 If the machine is cleaned less often, use 2 scoops (10g).
- 4 Run brew cycle (10 secs) to dissolve, stop cycle (10 secs), repeat 4 times.
- 5 Remove handle and rinse well under delivery group.
- 6 Re-insert handle and run cycle (5 secs) and stop cycle (5 secs), repeat 10 times.
- 7 Remove the blind filter and replace the normal coffee filter.
- 8 Brew and discard 2 shots before serving coffee.
