

ANTIFOAM MIFG

Food Grade Antifoaming Agent

FEATURES

- Heavy duty de-foaming action
- Food grade

DESCRIPTION

ANTIFOAM MIFG is a water soluble food-grade silicone emulsion containing 10% of active antifoaming agent used as a foam depressor in aqueous and non-aqueous applications. It helps quickly destroy air bubbles and cause breakdown of the foam surface, which ultimately reduces the foam formation.

DIRECTIONS FOR USE

SHAKE WELL BEFORE USE. Effective concentrations are determined based on plant trials to ensure the product suitability. A dosing level of minimum 10ppm based on silicone solids is an appropriate starting point. The level can be adjusted to determine the minimum effective concentration for the system.

Consult your Jasol representative for further information.

AREAS OF USE

- Food processing plants
- Dairy processing plants

SAFETY INFORMATION

ANTIFOAM MIFG is NOT classified as Hazardous according to the GHS.
ANTIFOAM MIFG is NOT classified as Dangerous Goods according to the ADG Code (7th Ed).
ANTIFOAM MIFG is NOT a Scheduled Poison according to the SUSMP.

FIRST AID INFORMATION

For advice in an emergency, contact **Poisons Information Centre Australia (Phone 13 11 26) or a doctor at once**. If swallowed do NOT induce vomiting. Wash out mouth thoroughly with water. If in eyes, hold eyelids apart and flood with water for at least 15 minutes. If on skin, remove contaminated clothing and wash affected area with running water. Seek medical attention if symptoms develop.
