

# COMMERCIAL BLEACH

## Chlorinated Bleach

### FEATURES

- Rapid action on cotton and linen
- Removes difficult stains
- Kills 99.999% of bacteria
- KOSHER approved

### AREAS OF USE

- Industrial & commercial laundries
- Hospitals
- Nursing homes
- Hotels & motels
- Public facilities
- Domestic use

### DESCRIPTION

COMMERCIAL BLEACH is a sodium hypochlorite based liquid bleach with strong disinfecting properties. It can be used for multiple applications, such as laundry bleaching, and general disinfecting of a wide variety of surfaces around the house. Due to its nature, the product is subject to gradual degradation of chlorine component. This process is greatly accelerated with heat. Should not be used on polyester or blend fabrics.

### DIRECTIONS FOR USE

It is recommended that the spot test be done in an inconspicuous area conducted before use. Where possible, dilute 1:11 with water to achieve 1% of available chlorine before adding to a washing machine. The recommended temperature for bleaching is 60-65°C. This avoids damage of linen material. For normal bleaching add 2mL/10kg load of dry weight washing.

Consult your Jasol representative for further information.

### SAFETY INFORMATION

COMMERCIAL BLEACH is classified as Hazardous according to the GHS. COMMERCIAL BLEACH is classified as Dangerous Goods according to the ADG Code (7<sup>th</sup> Ed). COMMERCIAL BLEACH is a Scheduled Poison according to the SUSMP. Avoid contact with eyes and skin. Do not breathe vapour or mist. Refer to SDS for further information.

#### FIRST AID INFORMATION

If poisoning occurs contact a doctor or **Poisons Information Centre Australia, Phone 13 11 26**. If swallowed do NOT induce vomiting. Wash out mouth thoroughly with water and seek immediate medical attention. If in eyes, hold eyelids apart and flood with water for at least 15 minutes. If on skin, remove contaminated clothing and wash affected area with running water. Seek immediate medical attention.
