

DUROBROM

Oxidising Biocide

FEATURES

- Broad spectrum activity
- Increased stability
- Controlled release of active ingredients
- Economical

AREAS OF USE

- Evaporative condensers
- Cooling towers
- Influent systems
- Air washers
- Sewage systems
- Industrial wet scrubbers
- Brewery pasteurisers

DESCRIPTION

DUROBROM is a halogenated hydantoin that functions as an effective microbiocide through the controlled release of active bromine and chlorine. DUROBROM is a fungicide, bactericide, algacide and molluscicide for recirculating and once-through water systems.

The increased stability of the combined halogen in systems with high halogen demand allows greater diffusion into the biofilm without losses due to unwanted side reactions.

Active Ingredients:

1-bromo-3-chloro-5, 5-dimethylhydantoin, 1,3-dichloro-5, 5- dimethylhydantoin and 1,3-dichloro-5-ethyl-5-methylhydantoin.

DIRECTIONS FOR USE

The use rates for industrial recirculating cooling water systems will depend upon the conditions of the system prior to treatment initiation. Systems, which are heavily contaminated, should be cleaned prior to product use. Apply DUROBROM to maintain a free halogen residual in the recirculating water.

Please, consult your Jasol representative for assessment before use.

SAFETY INFORMATION

DUROBROM is classified as Hazardous according to the GHS.

DUROBROM is classified as Dangerous Goods according to the ADG Code (7th Ed).

DUROBROM is NOT a Scheduled Poison according to the SUSMP.

Avoid contact with eyes and skin. Refer to SDS for further information.

FIRST AID INFORMATION

For advice in an emergency, contact **Poisons Information Centre Australia (Phone 13 11 26 or a doctor at once)**. If swallowed do NOT induce vomiting. Wash out mouth thoroughly with water. If in eyes, hold eyelids apart and flood with water for at least 15 minutes. If on skin, remove contaminated clothing and wash affected area with running water. Seek immediate medical attention.

PHYSICAL & CHEMICAL PROPERTIES

FORM	Granulated Solid
COLOUR	White
ODOUR	Slight, Pungent
pH	3.6 (10g/L)
SOLUBILITY IN WATER	5g/L (at 25°C)
FLAMMABILITY	Not Flammable

4x 4.5lb
 2144005
