- Catering site
- Restaurants
- Cafeterias

DESCRIPTION

FIREDOG is a highly alkaline liquid specially formulated for heavy duty cleaning of ovens, grills and hot plates. Its enhanced formula is fortified with surfactants which enables to remove baked on fats and grease fast and effectively.

DIRECTIONS FOR USE

Squirt neat product to warm (NOT HOT) surface, making sure to spread evenly over surface. Leave the product on the surface for a few minutes and rinse off with potable water. For very stubborn deposits of carbon, use of a scrapper or abrasive griddle pad is recommended.

Do NOT spray or atomise the product. Do NOT use on aluminium or aluminium alloys. Avoid prolonged contact with tinned or galvanised surfaces.

Consult your Jasol representative for further technical information.

SAFETY INFORMATION

FIREDOG is classified as Hazardous according to the GHS.
 FIREDOG is classified as Dangerous Goods according to the ADG Code (7th Ed).
 FIREDOG is a Scheduled Poison according to the SUSMP.
 Avoid contact with eyes and skin. Refer to SDS for further information.

FIRST AID INFORMATION

If poisoning occurs contact a doctor or **Poisons Information Centre Australia, Phone 13 11 26**. If swallowed do NOT induce vomiting. Wash out mouth thoroughly with water and seek immediate medical attention. If in eyes, hold eyelids apart and flood with water for at least 15 minutes. If on skin, remove contaminated clothing and wash affected area with running water. Seek immediate medical attention.
