

JASOLVE CPEN-C

Biodispersant

FEATURES

- Superior biofilm management properties
- Cost effective
- Easy to control

DESCRIPTION

JASOLVE CPEN-C is a biodispersant designed for management of biofilm growth in water recirculation systems and heat transfer equipment. It assists in the prevention and removal of biological foulants, and was designed to supplement cooling system inhibitors and biocides in order to maintain clean surfaces in heat transfer equipment and cooling towers. It also functions as a general corrosion inhibitor and cleaner for heavily fouled systems. Use in conjunction with biocides to assist in maintaining a clean system

DIRECTIONS FOR USE

The dosage rates for JASOLVE CPEN-C will depend upon a number of factors, including the type and volume of the system being treated and initial hardness of water.

For assessment before use, please consult your Jasol representative.

SAFETY INFORMATION

JASOLVE CPEN-C is classified as Hazardous according to the GHS.
 JASOLVE CPEN-C is NOT classified as Dangerous Goods according to the ADG Code (7th Ed).
 JASOLVE CPEN-C is NOT a Scheduled Poison according to the SUSMP.
 Avoid contact with eyes. Refer to SDS for further information.

FIRST AID INFORMATION

For advice in an emergency, contact **Poisons Information Centre (Phone Australia 13 11 26) or a doctor at once**. If swallowed do NOT induce vomiting. Wash mouth thoroughly with water and seek medical attention. If in eyes, hold eyelids apart and flood with water for at least 15 minutes. If on skin, remove contaminated clothing and wash affected area with running water. Seek medical attention if irritation persists.
