

PROTREAT 366

Oxidising Biocide

FEATURES

- Broad spectrum activity
- Effective over a wide range of conditions
- Compact size
- Effective at low concentrations

AREAS OF USE

- Cooling towers
- Recirculating cooling systems
- Process cooling
- Industrial radiator systems
- Refrigeration systems

For further information regarding product safety and handling, refer to the Safety Data Sheet and product label.

DESCRIPTION

PROTREAT 366 is a high-performance broad spectrum Bromochloro-Dimethylhydantoin based biocide recommended for use in industrial cooling systems, cooling towers, air scrubbers and paper-mill waters. It is effective at a very low concentration against the growth of algae, bacteria and fungi. PROTREAT 366 is particularly used to control *Legionella pneumophila* outbreaks when manually dosed to contaminated systems and as an on-going treatment when dosed to clean systems on a continuous basis.

DIRECTIONS FOR USE

PROTREAT 366 should be added manually on a regular basis for optimum results. The concentration levels will vary upon the extent of microbial contamination and characteristics of the system water. Levels are controlled by microbiological testing.

Please, consult your Jasol representative for assessment before use.

SAFETY INFORMATION

PROTREAT 366 is classified as Hazardous according to the GHS.
 PROTREAT 366 is classified as Dangerous Goods according to the ADG Code (7th Ed).
 PROTREAT 366 is a Scheduled Poison according to the SUSMP.
 Avoid contact with eyes and skin. Refer to SDS for further information.

FIRST AID INFORMATION

If poisoning occurs contact a doctor or **Poisons Information Centre Australia, Phone 13 11 26**.
 If swallowed do NOT induce vomiting. Wash out mouth thoroughly with water and seek immediate medical attention. If in eyes, hold eyelids apart and flood with water for at least 15 minutes. If on skin, remove contaminated clothing and wash affected area with running water. Seek immediate medical attention.

PHYSICAL & CHEMICAL PROPERTIES

FORM	Solid Tablet
COLOUR	White
ODOUR	Faint Halogen Odour
SOLUBILITY IN WATER	1.9 g/L at 25°C
pH	3.5-4.5 (1% Solution)
FLAMMABILITY	Non-Combustible. Oxidiser.

15Kg

2140150
