

SANITISER 401C

Citric Acid Based Sanitiser

FEATURES

- Food safe
- Suitable for stainless steel
- Foaming cleaner
- HALAL approved

AREAS OF USE

- Food processing areas
- Dairy processing areas

DESCRIPTION

SANITISER 401C is a citric acid based sanitiser designed for use in the food industry for no rinse applications. For critical infrastructure, SANITISER 401C can be used to maintain idle equipment in a sanitised state for a maximum of 24hours.

DIRECTIONS FOR USE

No Rinse Sanitiser: After cleaning, circulate SANITISER 401C at a concentration of 0.15- 0.4%. If possible the solution should be circulated at an ambient to warm temperature and is found to perform best at approximately 50° C (Maximum functional temperature 70° C).

Open Plant Cleaning: Manual cleaning 1-10% v/v; Through a Foaming unit: 2.5-10% v/v.

Contact times of at least 120 seconds are recommended for all temperatures and surfaces, and will be in part determined by the temperature of the sanitising solution.

SAFETY INFORMATION

SANITISER 401C is classified as Hazardous according to the GHS.

SANITISER 401C is classified as Dangerous Goods according to the ADG Code (7th Ed).

SANITISER 401C is NOT a Scheduled Poison according to the SUSMP.

Avoid contact with eyes and skin. Avoid breathing vapour or mist. Refer to SDS for further information.

FIRST AID INFORMATION

For advice in an emergency, contact **Poisons Information Centre (Phone Australia 13 11 26) or a doctor at once.** If swallowed do NOT induce vomiting. Wash mouth thoroughly with water and seek medical attention. If in eyes, hold eyelids apart and flood with water for at least 15 minutes. Seek immediate medical attention. If on skin, remove contaminated clothing and wash affected area with running water. Seek medical attention if irritation persists.
