DESCRIPTION

SOFTENER SALT is a solar sodium chloride water softening agent. This premium industrial salt is specially manufactured to suit water treatment applications. The extra large crystals assist the water softening unit by removing the calcium and magnesium ions from the hard water and replacing them with more soluble sodium ions.

DIRECTIONS FOR USE

The dosage rate for SOFTENER SALT will depend upon a number of factors, including the type and volume of the system being treated and the degree of water hardness.

Please, consult your Jasol representative for further information.

SAFETY INFORMATION

SOFTENER SALT is NOT classified as Hazardous according to the GHS.
SOFTENER SALT is NOT classified as Dangerous Goods according to the ADG Code (7th Ed).
SOFTENER SALT is NOT a Scheduled Poison according to the SUSMP.

FIRST AID INFORMATION
For advice in an emergency, contact **Poisons Information Centre Australia (phone 13 11 26) or a doctor at once.** If swallowed do NOT induce vomiting. Wash out mouth thoroughly with water. If in eyes, hold eyelids apart and flood with water for at least 15 minutes. Seek medical attention if irritation persists.
